Dear Friend,

If you are someone who has put off needed dental care due to fear of the dentist, or you look in the mirror and see a smile that embarrasses you and if you've had bad dental experiences in the past, then this report may just be the **most freeing one you've ever read**.

Before I tell you the most common reasons why patients choose our dental office to give them the smile of their dreams, let me ask you a few questions:

- **Do you dislike your chipped, missing, crooked, or stained teeth?**
- Would you like to have whiter, straighter teeth that look magnificent?
- **Would you like to look and feel 10 years younger and receive compliments about your attractive smile?**
- Have you been putting off going to the dentist due to fear, anxiety pain, or sensitivity?
- **Have you ever wondered what it would be like to smile with CONFIDENCE and feel extremely ATTRACTIVE?**
- **Are you ever embarrassed or frustrated with your teeth and/or your smile?**
- Do you have teeth that are overlapped, twisted, crooked, or have gaps...and would like a simple pain-free solution that gives you a fantastic smile almost instantly?
- **Do you want to smile with confidence once again by showing off the smile that you truly deserve? The one that lights up a room and sparkles?**

If you answered "YES" to any of these questions, then I guarantee I can help you fix these problems while also giving you the smile you've always dreamed of. With advanced dentistry and our extensive training we can take almost any smile, no matter how bad, and turn it into a gorgeous smile that you would normally see on the T.V. Show Extreme Makeover. Plus, if you read this report, I'd like to invite you in for a **FREE Smile Makeover Consultation** so you can see for yourself what your smile can look like before any dentist ever touches your mouth. (this is using our virtual dream smile experience which I'll explain later)

Whether you want a Dream Smile or you just want small improvements that are subtle, but you can truly enjoy deep down in your heart, then I want to extend a very special offer that I can only give to the first 27 people who respond.

I recently spoke to Kena , a wonderful lady who had a beautiful smile created at our office, at her latest check –up appointment. She told me how thrilled she was with her new smile , because she thought she could never have beautiful teeth.

She felt like her teeth were always too short and never liked the gaps between them. And yet in just two appointments we were able to create a smile that brought a tear to her eyes.

I tell you this because stories like these excite and motivate our whole office and they happen all the time! We absolutely LOVE giving great care to people and can't wait to send **you out into the world with a smile that others compliment, envy, and admire!**

What I'm talking about may sound too good to be true, but that is why, before I'm done speaking with you today, you'll realize you CAN have the smile you've always dreamed of, and how you can do it affordably and almost INSTANTLY! (Listen: Many people, maybe even some of your neighbors, have already seen the amazingly painless, quick, confident results from coming into our office with their most challenging dental problems.)

Imagine walking Into Your Home With A Five Star Smile, Without Experiencing Any Anxiety Or Discomfort!

I realize this sounds almost too amazing to be true, but the facts are undeniable. I'm a dentist, and I absolutely cannot stretch the truth of these astonishing results.

Look. **Here's all you do:** You simply come into the office for a **FREE Smile Makeover Consultation** where we explain and show you with cameras and video how easily we can give you the smile you've always dreamed of! And how you can do all of this quickly, in total comfort, and have people *complimenting* and raving about you and your smile. It's not rare for someone to have the "new attractive" smile in just 2 visits!

You Can Understand How Thrilling It Is To Suddenly See A New, Whiter, Straighter And More Attractive Smile In Your Mirror!

How can you get such wonderful results? Simple: There are so many new advanced methods in dentistry that we can 'fix' any dental problem. The good news is that I've kept on the cutting edge of dentistry so that I can handle more cases than you can even imagine.

These new methods make it so you can come in with an embarrassing, twisted, crooked, or gapped smile and you can walk out of our office with a more attractive, confident, glowing smile (sometimes in as few as 2 visits) that your

neighbors and friends will wish they had. Only you don't need to go through any long, uncomfortable, or frustrating procedures.

Imagine seeing more positive cosmetic enhancing results in the same amount of time it takes to do your hair and make up. Even the “ugliest, most distorted, discolored teeth” have been *miraculously* transformed in as little as two visits.

I'm not kidding. When you choose our office, you see results immediately. Imagine, in as little as 21 days, you can expect to feel like a completely different person...and you'll have friends and family accusing you of discovering the fountain of youth!

**Some Patients Even Say They “Feel”
Like They Are 20 Years Younger...
Their Spouses Are Ecstatic!**

Of course, with dramatic improvements like this, it's only natural to be skeptical. You may think that it sounds too good to be true... and I have to admit that when I was going through my clinical and continuous education courses, I thought these advanced dentistry guys were nuts.

But what doesn't lie, are the many success stories that have come through our office, and when you come into our office you'll see all the pictures of ecstatic patients.

I believe, from the bottom of my heart, that almost anyone who has teeth can come into our office and we can transform their teeth into a Million Dollar Smile – quickly, easily, with pain free dentistry!

What's more, the best results seem to happen for people who have had the most trouble with their teeth or want to look and feel younger, more vibrant, and more confident.

Here's why: There's really only two ways to have the smile you've always dreamed of. **One** is being born with great genetics (not the majority).

The **second** is to find out what's available to you by going to a dentist, one that has stayed current with the advancements in dentistry and focuses on *educating people rather than selling*. This way YOU get to hear ALL your options rather than just being told the “Highest Profit” procedure.

So, no matter what dental problem you are currently facing, we can help! When we are complete, you will be left with a smile that makes you and your spouse or partner ecstatic and desiring more intimacy than ever before.

When you have a more attractive smile, an excitement and confidence will ignite in you that you haven't felt in a long time. Maybe even the same feeling that you got when you fell in love for the first time.

And all this can happen very quickly! You may see your results INSTANTLY!

Quite simply, I believe this coming in for your **FREE Smile Makeover Consultation** and finding out how we can help you out, without feeling any pressure to do any care, can be the best thing you've ever done for your dental happiness. It causes no pain, makes you look and feel more attractive and confident than ever, and it does so FAST!

What more could you ask for? I'm convinced it's high time that everyone in the U.S.A. is told of this amazing discovery. That's why I'm writing to you now. I would like your help in accumulating more "Fountain Of Youth" success stories- and I'm willing to give you a chance to find out if this is for you...for FREE!

Here's what you must do: If you (or any of your friends or family) are embarrassed or frustrated with your teeth, please come in for a simple **FREE Smile Makeover Consultation**

When you come in, you will get a chance to see first hand what your smile can truly look like without having to agree to any kind of treatment. In fact, what's so amazing about our camera is that we can show you different ways of getting your smile straighter, whiter, healthier, stronger, and much more BEFORE you ever agree to have any care! (This will amaze you!)

NO Sales! No Pressure! No Obligation To Accept Treatment!

When you come in, here's something you really need to understand; our practice is filled with great, happy, and fun patients. One of the main reasons is that when they come into our office, we treat them like family.

So, what's really important to know is that no one here is going to pressure you or pull some tricky sales pitch on you, and try and give you anything you don't want or need.

In fact, it's the total opposite. We are here to educate you and make you feel like you truly have a support team that is on YOUR side and is going to go the extra mile to get you the results that YOU want. After

all, that is what's most important, and that's why we get so many referrals from our current patients.
