Dear Friend:

If you have been terrified to go to the dentist or hate getting any dental work done, then you must read this letter as it may be the most important letter you ever read when it comes to finding out how you can have an *enjoyable, pain-free, stress-free experience when you go to the dentist.*

I came across a very special procedure that only a small percentage of dentists are doing that has absolutely changed the lives of many patients because it allows anyone to get all the dental care they need without any fear or pain.

Simply put, when you come to our office you “sleep” while we treat and won’t experience any pain at all!

People come to me for conscious sedation if they have...

- Fear of needles
- Have had bad experiences in their past with a dentist or in a dental office
- Have dental phobias
- Toothaches or Headaches,
- Missing teeth,
- Desire a more attractive smile
- Fear the pain associated with dentistry
- Hate drills or the smell of the dental office,
- Irritated with their partials or full mouth dentures,
- Have children who fear the dentist,
- Are in need of a crown or bridge
- Old silver fillings that need to be replaced,
- Had some SERIOUS tooth decay and it was affecting their overall health
- Experience Low Self-Esteem or Poor Self Confidence
- Experience Constant Oral Pain
- Bad Breath
- Trouble eating certain foods
- Can’t get numb with anesthesia
- Want to sleep through their dental care using sedation dentistry,
- Or simply anyone who wants a dentist who will give an anxiety-free and practically pain-free experience, while guaranteeing his work.

Just to name a few.

Many patients have tried different ways to alleviate their fear of going to the dentist with little or no success. They have searched for years, using hypnosis, meditation, and even going to therapy, but never did they think they could go to an office where Fear, Pain, and Anxiety are a thing of the past!

Their hopes and wishes for this type of dental experience seemed like just a dream...until now. Now, I can do the dentistry they need without my patients having to go through any fear, pain, or anxiety!

What I do is perform sedation dentistry that allows you to come in and sleep through your dental care. What’s so great about this is that you can get 4 visits in done in just 1, because you are sleeping.

Here’s How Sedation Dentistry Works!

I know you may think it's too good to be true, too far fetched that I can literally transform any fear you've ever had regarding going to the dentist in just one visit. I understand. I was just as skeptical. Maybe more so.

I have heard so many promises about pain free dental care and transforming ugly smiles into gorgeous smiles in just one visit that I have become almost overly skeptical about people who made such claims. That is why I always test everything I do in my office on myself, and practice it with my own friends and family.

However, with all the real life examples I had seen before, the proof was staring me right in the eyes. My instincts told me to start doing it myself, and I don't know how I practiced all those years without this amazing technology.

And, the best part of sedation dentistry is that you will wake up with all your dental work done, and never feel a pinch of pain. It will be the most pleasurable experience at a dental office that you could ever imagine.

Most importantly, you'll be able to have a smile that will make your true personality radiate like the sun with your new, white, perfect smile and...*you won't be able to tell you have anything other than your God given teeth either!*"

While the procedure is amazing in itself, there are dozens of reasons why people absolutely love our office, but here are 7 specific reasons people can't help but tell their friends and family about us:

6 Reasons Why People Are Ecstatic About Our "Sleep While We Treat" Dental Office!

- 1. Pain Free Dental Care:** Get the dental care you need without the fear of pain you may have had in the past.
- 2. Anxiety Free Visits:** With sedation dentistry and nitrous oxide you no longer need to be afraid of getting the dental care you need.
- 3. Headphones and CD's while you get care!** You get listen to the CD of your choice while we give care!
- 4. No Waiting Room-** when you come to our office, you'll notice that you don't wait a second. The moment you show up, your care begins. If you ever wait longer than 15 minutes, you'll receive our apologies and a free gift!
- 5. No Lecture Dental Office-** studies have shown that the #1 reason people put off their dental care has nothing to do with fear or pain, but has to do with the guilt of putting off the dentist, because they are afraid to get lectured by the doctor and staff. At our office we just want to help you get the treatment you need to have a beautiful, healthy mouth. If we lecture you or make you feel guilty, you'll receive 2 FREE movie tickets.
- 6. No-Risk, Guarantee!** If for any reason you are unsatisfied with your care, then we keep working until you are happy it's that simple! I've never heard of another doctor who had the guts to make such a claim. We can say we do this because we are so confident you will absolutely love your visit.
