

“Can You Guess #1 Reason People Put Off Going To Their Dentist?”

HINT: It Isn't Fear, Money, Or Anxiety...

Latrobe, PA – Local Dentist Dr Scott Hudimac reveals the hidden truth about why people tend to put off their dental check-ups, cleaning, and care. What is so surprising is that when doing a survey of his patients, Dr Hudimac found that it had very little to do with Money, Fear of Pain, or Anxiety.

In fact, what he found out was that the main reason people put off their dental care is that they are embarrassed about how long it's been since their last visit, and the last thing they want is a lecture from their dentist.

“Most people know that they should be coming in every 6 months, but if they miss it, they start feeling embarrassed, guilty, or even ashamed. They start to reprimand themselves in their own minds, and think the dentist is going to do the same thing. When the reality is that no dentist is out there to make their patients feel bad.”

“In fact, it's just the opposite. All we really want is to make sure that you are getting the care you need and not putting yourself in unnecessary danger for gum disease, cavities, root canals, or even losing teeth.”

When asked about how his office handles such situations where people feel guilty, Dr Hudimac has created what he calls a, “No Lecture Zone Dental Office!”

“When people come to our office, we let them know that this is a No Lecture Zone. Which means, we will educate our patients, take great care of them, but NEVER lecture them or make them feel bad about not coming in on time.

We want the best for our patients and have found that when we don't pressure or hassle them, we have better compliance, they are happier, and tend to come in voluntarily on time. We think this is the best win-win situation for all of us.”

So, if you've been putting off your dental care, and one of the reasons is that you are nervous that you will be hassled or given a hard time, then Dr Hudimac just wanted to personally let you know that you no longer need to worry about it. The “No Lecture Zone” is now running 24 hours in all areas of his office.

Also, since it may have been a while since you've seen the dentist Dr Hudimac is making a special guilt-free amnesty offer. If you call and mention this article when you schedule an appointment, Dr Hudimac is giving away FREE X-rays with your Comprehensive Exam (A Savings of \$100). But you must call immediately as they are very busy and can only extend this special offer to the first 21 people who call.

And Dr Hudimac backs his offer up with a guarantee. “We love helping people get a healthy, attractive smile, and I guarantee we won't lecture you or make you feel guilty or you'll get a free gift as well as the FREE X-rays.

So now there are no more reasons to put off your dental care. Help is only a phone call away.
